

RELIC No.01

LIGHT MATERIAL MEMORY

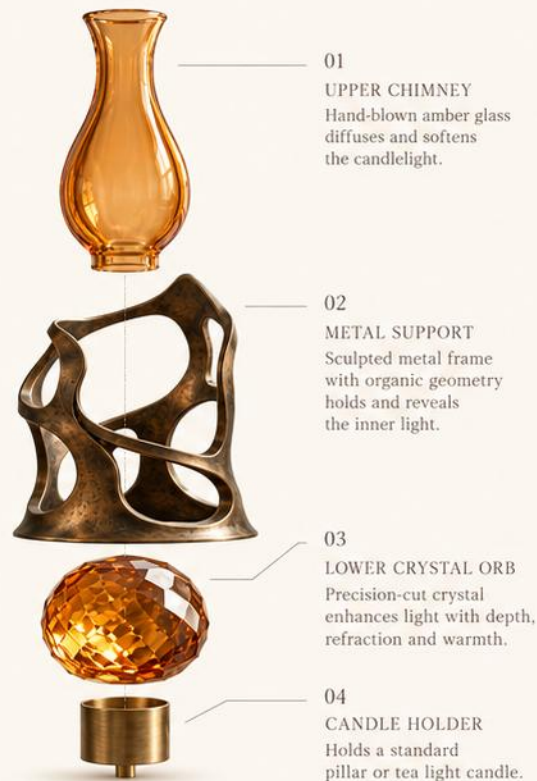

A sculptural candle object inspired by relics of the past and the quiet power of handcrafted form. RELIC No.01 transforms a simple flame into a layered experience of light, material, and shadow — a study in balance between the organic and the engineered.

Both functional and sculptural, it brings warmth, atmosphere and a sense of timelessness to any space.

01 AMBER GLASS

Hand-blown glass chimney in a warm amber tone. Smooth, luminous and translucent, it diffuses the light with a soft, atmospheric glow.

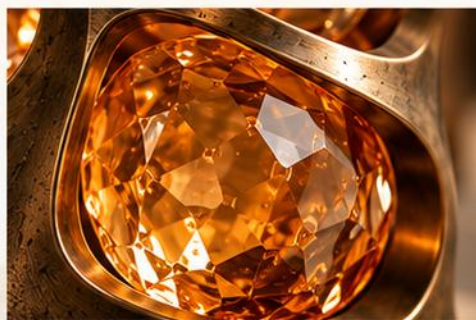

02 BRONZE FRAME

Sculptural frame in aged bronze/brass with a rich, tactile patina. Organic contours and refined surface texture give depth, character and a timeless presence.

03 CRYSTAL ELEMENT

Faceted crystal element at the base, capturing and refracting the warm light. Adds depth, brilliance and a jewel-like presence to the composition.

04 INNER LIGHT MODULE

Warm, candle-like light source designed to create an intimate and atmospheric glow. Engineered for a soft, ambient illumination that enhances the natural beauty of the materials.

DESIGN DEVELOPMENT

01 INSPIRATION

Inspired by the timeless presence of oil lamps, RELIC No.01 reinterprets the ritual of light through a contemporary and sculptural language. It carries the nostalgia of the past while embracing a refined, modern form.

02 INITIAL SKETCHES

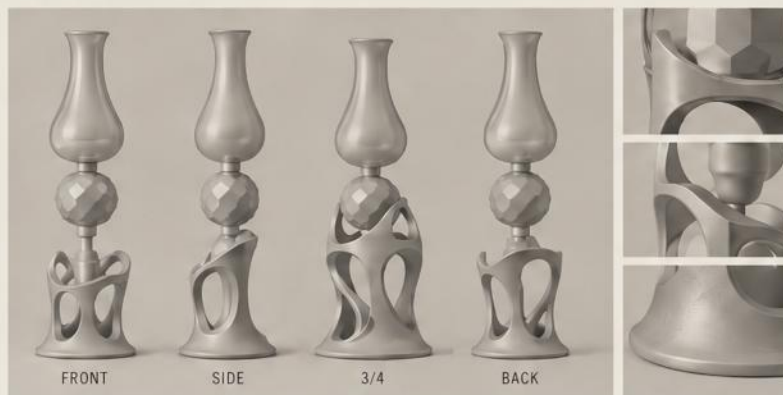

03 FORM EXPLORATION

Exploring the balance between glass, light and sculptural support.

Refining the proportion, curvature and negative space to achieve a lighter, more elegant form.

04 3D DEVELOPMENT

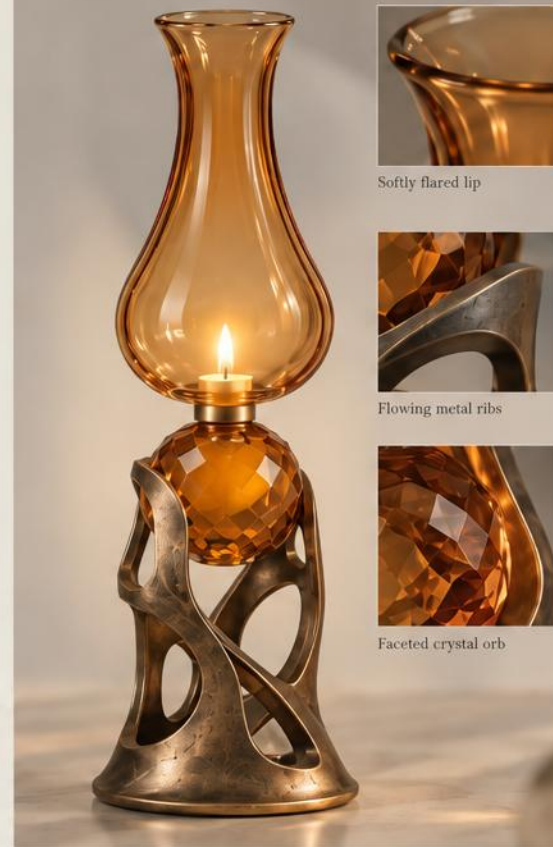

05 PROPORTION STUDY

Testing different proportions and base widths to find the most balanced silhouette.

06 KEY FORM

07 DESIGN LANGUAGE

RELIC No.01 is defined by a fluid, sculptural support that embraces light. The design language combines organic curvature, refined materiality and a sense of timelessness, creating an object that feels both familiar and new.
